Ms Priyanka Behera receiving Hall of Fame The Golden Globe Tigers Award in individual CSR Category

The criteria of selecting HR & CSR Hall of Fame The Golden Globe Tigers Award 2018, is after intense research process undertaken by the Research Cell which consists of professionals in History & Management with wide research experience. It is the iconic job of the research cell to produce a shortlist of Individuals who are doing extraordinary work in HR & CSR and track the record of their achievements.

The shortlist is then reviewed by a Jury Panel comprising of top professionals from across the globe, based on the nominations received.

## XGen Plus launches the Video Meet App on Android and IOS

The world's first linguistic email service provider Data Xgen Technologies, on May 9 announced the launch of Video Meet App on IOS and Android. It is the first Indian app that allows multipoint video conferencing without requiring a dedicated network. Video Meet is a unique and a free of cost application developed by Bharat Sync Technologies which is an associate company of Data XGen.

The app allows its users to initiate and experience high-definition (HD), multi-point audio/video collaboration without a dedicated telecom network. Even a phone without a sim card can use the application with the help of a Wi-Fi connection. The adoption of this service does not entail any capital expenditure for the customers. The application functions on multiple devices – mobile phones, tablets, desktops, laptops and room systems. Its security system does not allow anyone to join the conference without an invitation.

Mr. Ajay Data, CEO, Data XGen said, "We are excited to announce our new initiative to empower every person and every organization on the planet to achieve more. Not only has it brought innovative digital tools and skills to hundreds of people from all over the world but is a great example of offering users the ability to explore the ease to connect with each other. The company has an expanding base both in India and overseas". Video Meet provides

anytime anywhere secure audio/video conferencing in between people without the need of any registration and sign up. Simply users can create their "room" and share the room name to join. Even the "room" can be protected by password. Video Meet can also be used "audio" only conference by switching off video.

Dr. Data further added, "Other Apps allow you to have two way communication calls which mean if you add a person as a friend then both can call each other. In the case of Video Meet, there is a privacy layer and control over the room. If you join my room you can talk to me only after I initiate the call. There is no record / log kept on the server for the calls and all the conference calls are encrypted so that privacy of the calls is ensured".
