

RSB Receives Quality Excellence Award

Wednesday, 24 September 2014 04:59

RSB Transmissions Ltd was given the Quality Excellence Award for 2014 from Aditya Birla Group, at the Third Annual Manufacturing Today Conference and Awards 2014, in Pune. Aditya Birla Group Manufacturing Today gives out these awards every year to appreciate the moves of Indian industry professionals during challenging times, in areas of operations, quality, HR, technology, and innovation. M Sankaranarayanan, President, RSB Transmissions, received the award on behalf of the company.

A panel of jurists, consisting of leading industrialists and top professionals, scanned nominations on the basis of achievements in quality, and conferred the award on RSB, the company said. The panel also commended RSB for its TQM approach and initiative with a unique difference for the year 2013-14, RSB added.

Sankaranarayanan said the award was well-deserved by employees across the group and the TQM team, in particular. In 2013, the Auto Division of the Pune-based RSB Transmissions had bagged the Deming Prize given by the Union of Japanese Scientists & Engineers (JUICE).
